Enquiries made by a Sub-Organisation as to BANDERA's present residence and activities resulted in the following information:-

The first contact was realised by the British IS, Professor von WENDE, in summer or autumn 1948. Negotiations remained without any success as the political, financial and technical claims of the Ukrainians could not be met.

A second discussion between Professor von WENDE and STETZKO took place on 18 March 1949 and had the same negative result.

According to information we received BANDERA is said to be still residing in the area of MUNICH but to be changing the places very often. An enquiry with STETZKO made by one of our members on occasion of an ASN conference confirmed this information.

There is allegedly no connection with the British IS.
